

Diana Chizhik

Senior Software Test Analyst/ QA Team Lead

 chizhikdiana@gmail.com  dichizhik.com  linkedin.com/in/dianachizhik  [DianaChizhik](https://github.com/DianaChizhik)

Profile

Senior QA Engineer with 7+ years of experience in mobile and web testing, team leadership, and QA process optimization. Proven ability to launch major updates with minimal post-release defects, enhance bug-tracking systems, and mentor other engineers. Hands-on experience creating and maintaining automated tests in C# using the NUnit framework, with active use of AI to enhance productivity and support test automation development. Expertise in Agile workflows, risk-based testing, and quality assurance best practices.

Professional Experience

Senior QA Engineer with AI-Assisted Test Automation C#, SDG	04/2025 – Present
- Performed comprehensive testing of mobile (iOS/Android) and web applications, covering UI, functional, integration, and regression testing. - Designed and maintained automated tests in C# with the NUnit framework, using AI to streamline test creation and support scalable quality assurance processes. - Owned release validation activities, ensuring feature readiness, risk mitigation, and high-quality production releases. - Drove QA process improvements, optimizing testing workflows and contributing to more efficient and reliable delivery cycles.	
Senior Software Testing Engineer/QA Team Lead, EPAM, EE	01/2022 – 04/2024
- Conducted functional and UI testing for web and mobile platforms - Managed testing processes within several teams, improving test coverage scenarios by 80% - Led full release support, including regression packs, test plans, and coordination - Established risk-based testing strategies, reducing production defects by 30%.	
Senior QA Analyst, Playrix	04/2024 – 04/2025
- Conducted mobile game testing (iOS/Android) covering functional, regression, integration, and exploratory testing - Optimized bug tracking, reducing resolution time by 25% - Planned and executed QA sprints, ensuring 100% on-time stable delivery - Introduced and standardised test documentation processes across several company segments - Successfully contributed to a major game update launch, ensuring a smooth rollout with minimal post-release issues	
Software Testing Engineer, EPAM (Burberry, LSEG)	06/2019 – 01/2022
- Designed and executed test cases, performing cross-platform testing - Performed cross-browser testing and collaborated with developers to resolve defects. - Validated payment processing workflows, ensuring seamless transactions	
Junior Tester, EPAM (Burberry)	10/2018 – 07/2019
- Assisted in functional and regression testing for web and mobile applications. - Created and maintained test cases and test documentation. - Reported and tracked bugs in Jira, ensuring timely resolution.	

Education

E-business Management, *BSUIR - master degree* 2022

Computer Science, *BSUIR - bachelor degree* 2020

Skills

- Mobile testing (ios,android)
- Web services testing (Postman; Graphiql, Charles)
- Accessibility testing (NVDA; Voice over; Tall back)
- Test Cases Creation, Execution, Review
- Test Documentation & Wiki Maintenance
- Mentoring, Coaching & Interviewing Newcomers
- Creation Geb/Spock for Auto team
- Automated Testing with C# and NUnit (AI-assisted development)
- Functional, Regression, Smoke, Sanity, Integration, Exploratory Testing best practices
- Compatibility/Cross-browser testing
- Payment systems testing (Buynet/Google/Apple Pay; Paypal)
- Test Reporting & Defect (Jira,TestRail,Qase,Allure)
- QA Planning & Risk-Based Testing Strategies
- CI/CD: Environment deployments in Jenkins/TeamCity
- Backend & FinTech Systems Testing (API, Integration, and Transaction Validation)

Languages

- English
- Russian

Certificates

- ISTQB Certified Tester Foundation Level
